ZTM & BPD Unit ICAR-IARI

Announces

Three-week training programme on
"Intellectual Property Rights
in Agriculture"
(10-30 June, 2015)

Sponsored by
Ministry of MSME, Govt of India
under the scheme "Building Awareness on
Intellectual Property Rights (IPR) for the MSMEs"

Organized by
**Zonal Technology Management &
Business Planning and Development (ZTM & BPD) Unit
ICAR-Indian Agricultural Research Institute**
Pusa Campus, New Delhi - 110 012

'Knowledge economy' is gaining importance as one of the most potent tools of economic growth and wealth creation. The pride of place in the "knowledge economy" is held by intellectual property (IP). Development of human capital in repository of knowledge and skills through training at various levels is crucial. World Intellectual Property Organization (WIPO) and the World Trade Organization (WTO) recognize the basic role of IP in business and trade matters. Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS) and other treaties, conventions and agreements provide agreed frameworks to address business issues in which IP is subsisting. To realize the advantage of various international developments, India has harmonized the national IPR regime with the agreed provisions. Updating knowledge and removing doubts is critical for concerned users from all fields and at all levels.

The ZTM & BPD Unit of ICAR-IARI is organizing a 3-week training programme funded by Ministry of Medium and Small Enterprises (MSME) to train/create awareness and help build up an innovation and Intellectual Property Rights (IPR) compatible culture in India, particularly in the MSMEs, technology/business incubators, agribusiness idols/start-ups, and agri-educational, research and R&D institutions. As India needs cumulative initiatives from across the sectors, the effort is to educate the entrepreneurs as well as the faculty members, researchers, associates and fellows from academic institutions under ICAR, Agricultural Universities and other Institutions engaged in agricultural research. The upcoming training seeks to build awareness/skills in IPR field of interested candidates in their initial years of working in agriculture research/R&D/business. The training will enhance participants' awareness of global challenges of technology, productivity, quality, and IPR that affect competitiveness of enterprises, particularly the MSMEs.

Invited Faculty with rich experience in IPR will train the participants in the theoretical and practical sessions. The near effect of this effort would be consciousness among the entrepreneurs and academicians whereas in the far effect capacity building opportunities to develop and set up viable business models based on innovations in agricultural R&D and business.

This training shall provide an insight to the participants of all such major developments, and also the processes, procedures and protocols in handling IP related matters in their curricular, research, R & D and enterprises.

OBJECTIVES >>

- To prepare entrepreneurs as well as researchers and faculty members with the information and knowledge on the best practices for identification and evaluation of IPR in order to maximize the benefits and returns from investments in research and to build up a symbiotic environment between them.
- To offer comprehensive IP and related training to the academicians/ scientists/ RAs/ SRFs of the Institutes working in agriculture sector so as to enable the agro based inventions move through systematically and properly.
- To create awareness and develop a culture for protection and management of IPR in the agro-based industries including MSMEs, R&D establishments, and research and academic institutions.
