Training Programme on Consultancy Projects Management 3 to 7 August 2015

The ICAR-National Academy of Agricultural Research Management (NAARM), Hyderabad will be doing a Training Programme on "Consultancy Projects Management" from 3 to 7 August 2015 at Hyderabad.

Background

Consultancy is an important component in agricultural research and development. In research and development institutions, the core activities and programmes are supplemented and complemented by sponsored research and short-term studies of the client organizations. The mandate of ICAR and the State Agriculture Universities (SAUs) is also to provide, undertake and promote consultancy services in education, research, training and dissemination of information in agriculture, agroforestry, animal husbandry, fisheries, home science and allied sciences. This training programme is aimed at fine-tuning the capabilities along with bringing awareness on the scope and utility of such consultancies including modalities/norms. Globally, companies in industrial and agricultural consultancies have come up, and are growing rapidly. In India, agri-companies and public enterprises have started offering consultancy services. The ICAR institutes and a few SAUs have also set up consultancy projects processing cells. This programme will supplement and update experiences, methods, case studies, and will impart skills in managing consultancy studies.

Objectives

The programme would:

- Build capacity on the processes and modalities of consultancy projects handling
- Train scientists on monitoring and evaluation techniques
- Orient the skills toward short-term studies

Methodology and Content

The methodology consists of a blend of lectures and group discussions. The content includes

- Scope for consultancies
- Potential agencies and organizations that need consultancies
- Sharing experiences of consultancy projects
- Rules (professional service functions) and other norms
- Ethics and quality concerns in consultancies
- Monitoring and evaluation techniques for managing consultancies
- IP issues and technology assessment
- Budgeting and expenditure in consultancy
- Report writing skills of consultancy studies
- Preparation of dummy proposals for consultancies
- Case discussions

Who Should Attend?
